DAAKYI

***Welcome to DAAKYI, Your trusted partner
in comprehensive cybersecurity solutions.***

Our mission is to safeguard your business from digital threats with tailored, cutting-edge cybersecurity strategies.

Mission Statement:

At DAAKYI, we are dedicated to providing robust cybersecurity solutions that ensure the safety and integrity of your business operations. Our team of experts is committed to delivering exceptional service and unmatched expertise.

IT CYBERSECURITY

DAAKYI offers comprehensive cybersecurity services to protect your IT infrastructure. Our solutions are designed to address the unique challenges of your business.

IT Cybersecurity Advisory and Consulting

Expert advice and consulting services to enhance your cybersecurity posture.

Managed IT Services

End-to-end management of IT functions to ensure seamless operations and robust security.

Application Security

Protecting your business software from unauthorized access and cyber threats through advanced security measures.

GOVERNANCE RISK & COMPLIANCE

Our GRC services help your business stay compliant with regulations, manage risks effectively, and safeguard your reputation.

Information Security Compliance

Guidance on meeting industry standards and regulatory requirements.

Supply Chain Risk Management

Assessing and mitigating risks associated with third-party vendors.

Risk Assessments

Comprehensive evaluation of risks to prioritize and manage them effectively.

VIRTUAL CISO & AWARENESS TRAINING

Virtual CISO Services

Access to top-tier cybersecurity expertise to protect your information assets.

Security Awareness Training

Programs: Educating employees on recognizing and responding to cyber threats.

Incident Response Planning

Developing and implementing plans to respond to security incidents swiftly and effectively.

VULNERABILITY ASSESSMENT & PENETRATION TESTING

Identifying and addressing vulnerabilities in your systems to prevent cyberattacks.

Internal & External Vulnerability Scan

Regular scans to detect and address vulnerabilities in your network.

Web Application & Database Penetration Testing

Ensuring the security of your applications and databases.

Ransomware Simulation Penetration Testing

Simulating real-world ransomware attacks to evaluate and strengthen your defenses.

CLOUD COMPUTING & SERVICE NOW ADVISORY

Cloud Computing Support Services

Helping businesses leverage the benefits of cloud computing securely.

ServiceNow Advisory and Consulting

Maximizing the potential of ServiceNow solutions for your business.

TAILORED SOLUTIONS FOR VARIOUS INDUSTRIES

DAAKYI offers customized cybersecurity solutions tailored to meet the specific needs of various industries.

Our deep understanding of sector-specific challenges allows us to provide targeted and effective security measures.

DAAKYI

FINANCIAL SECTOR

Challenges: Financial institutions face constant threats from cyber criminals targeting sensitive financial data.

Solutions: DAAKYI provides robust cybersecurity measures, including advanced encryption, fraud detection systems, and compliance with financial regulations.

Benefits: Improved data protection, reduced risk of financial fraud, and ensured compliance with industry standards such as PCI DSS.

HEALTHCARE SECTOR

Challenges: Healthcare providers must protect patient data and comply with strict regulations like HIPAA.

Solutions: Comprehensive risk assessments, implementation of secure data storage solutions, and regular security audits.

Benefits: Enhanced patient data security, reduced risk of data breaches, and full compliance with HIPAA and other healthcare regulations.

LEGAL SECTOR

Challenges: Law firms handle sensitive client information and must maintain confidentiality and data integrity.

Solutions: Secure document management systems, encryption of communications, and employee training on data protection.

Benefits: Increased data confidentiality, reduced risk of data breaches, and compliance with legal industry standards.

FEDERAL AGENCIES

Challenges: Federal agencies need to protect national security information and comply with federal regulations.

Solutions: Implementation of secure networks, regular security audits, and adherence to federal cybersecurity standards.

Benefits: Enhanced national security, improved data protection, and compliance with federal regulations such as FISMA.

INSURANCE SECTOR

Challenges: Insurance companies must protect policyholder information and comply with industry regulations.

Solutions: Data encryption, secure claims processing systems, and regular security assessments.

Benefits: Improved data security, reduced risk of fraud, and compliance with industry standards such as GDPR.

MANUFACTURING SECTOR

Challenges: Manufacturing companies face threats to intellectual property and operational disruptions from cyber attacks.

Solutions: Implementation of secure industrial control systems, regular vulnerability assessments, and employee training on cybersecurity.

Benefits: Protection of intellectual property, reduced risk of operational disruptions, and compliance with industry standards.

MANAGED SERVICE PROVIDERS

Challenges: MSPs must protect their clients' data and ensure continuous service delivery.

Solutions: Comprehensive cybersecurity measures, regular security audits, and secure data management solutions.

Benefits: Improved client data security, reduced risk of service disruptions, and enhanced trust from clients.

SECURITY CERTIFICATION PREPARATION

Helping your business achieve necessary security certifications.

Certification Types:

- SOC-2
- PCI DSS
- ISO/IEC 27001
- HIPAA/HITRUST
- CMMC

Steps to Achieve Certification:

- Evaluate current security program
- Develop necessary policies and procedures
- Implement required security tools and processes

SUCCESS STORIES

Case Studies: Financial Sector

Client: Leading Investment Bank

Challenge: The bank needed to enhance its cybersecurity measures to protect sensitive financial data from sophisticated cyber threats.

Solution: DAAKYI implemented a comprehensive IT cybersecurity program, including managed IT services and application security.

Result: The bank experienced a 40% reduction in security incidents and achieved full compliance with industry regulations.

SUCCESS STORIES

Case Studies: Healthcare Sector

Client: Regional Healthcare Provider

Challenge: The healthcare provider needed to comply with HIPAA regulations and safeguard patient data.

Solution: DAAKYI conducted a full security risk assessment and implemented a tailored cybersecurity program.

Result: The healthcare provider achieved HIPAA compliance and improved its overall security posture, reducing data breaches by 50%.

SUCCESS STORIES

Case Studies: Manufacturing Sector

Client: Automotive Parts Manufacturer

Challenge: The manufacturer faced frequent ransomware attacks and needed to secure its supply chain.

Solution: DAAKYI provided vulnerability assessments, penetration testing, and supply chain risk management.

Result: The manufacturer experienced a significant reduction in ransomware incidents and improved the security of its supply chain operations.
